## 【5】下記の英文を読んで設問に答えなさい

## **Poverty**

In fall 2022, the World Bank will update the International <u>Poverty Line</u> from \$1.90 to \$2.15. This means anyone living on less than \$2.15 is in 'extreme poverty'. (\*\*)

Why the change? Increase in the cost of food, clothing, and shelter between 2011-2017 make the real value of \$2.15 prices equal to \$1.90 in 2011 prices.

As for the World Bank goal to reduce extreme poverty to 3% or less by 2030, the pandemic has made it even harder.

Extreme poverty isn't the only poverty we have to contend with. 62% of the global population lives on less than \$10 per day. While there's been progress over the years, the end of poverty is still far off.
