**【5】** 下記の英文を読んで問に答えなさい。

Earth day is an annual event celebrated on April 22<sup>nd</sup> that aims to raise awareness about environmental issues and promote actions that help to protect the planet. Earth Day is the largest in the world with more than 500 million people taking part in 174 countries around the world.

While Earth Day can provide an opportunity for people to learn about the causes and impacts of climate change, it's not the only day to take action to reduce our carbon emissions. Action needs to start with us and with teaching and showing the next generation how to protect the world they will grow up in.

We strongly believe that our planet should be celebrated every day not just one day a year.
